Administration Personnel Changes In Prospect

WASHINGTON, Feb. 11 (AP)—The White House said officially for the first time today that changes are in prospect in top administration personnel and indicated announcement of a formula for settling the steel strike was imminent.

Press Secretary Charles G. Ross told a news conference, in reply to questions, that personnel changes "are in prospect," but he declined to elaborate.

Asked whether they had to do with the stabilization high command, he left it for reporters to use their own phraseology.

At the same time, Ross said:

"When and if a steel settlement is announced, there will be a full explanation of all the mathematics entering into it."

At one point, Ross indicated that a series of developments might be wrapped up into "one package."

Reporters got the impression he meant that there was a possibility of one statement covering personnel changes, a steel settlement and a price-wage formula. However, Ross did not clear up this point.

Ross said the announcement would come from the White House.

Asked whether such an announcement was not already prepared, he merely smiled.

As to whether there would be a formal announcement today, Ross said he did not know, but he repeated that changes in personnel are in prospect.

Asked about a possibility that John C. Collett will retire as economic stabilizer and be succeeded by O P A Administrator Chester Bowles with broadened authority over pricing, Ross simply said there was nothing official yet on any personnel changes.

A person familiar with White House strategy said that barring unexpected delays. U. S. Steel corporation was to have received notice of the new price last night. He added his belief that it would be high enough to permit early settlement of the C I O's nation-wide steel strike on the basis of President Truman's compromise wage increase proposal of 18½ cents an hour.

Corporation officials already in Washington could not be reached, and a spokesman for the 750,000 striking United Steelworkers said he had no word of the price decision.

Announcement of the new wage-price policy—designed to liberalize price increases enough to permit higher wage in other reconverting industries—may come late today along with announcement of the steel price, this official said.

Philadelphia Transportation Company Employes Strike

(By The Associated Press)

Philadelphia's street cars, buses and subway trains—means of transportation for 3,000,000 daily—were motionless today as 9655 employes of the Philadelphia Transportation company went on strike.

The transit workers belong to the C I O Transport Workers union and seek a pay raise of 25 cents an hour and other benefits. The company offered a 12-cent increase.

With 1037 taxicabs the only public vehicles left on the streets, emergency systems were improvised to get essential workers to their jobs, and some employers reserved hotel rooms for their staffs.

Navy buses assembled to take 25,000 civilian and service personnel to the Philadelphia navy base and other installations. The C I O organized a motor pool to transport hospital workers, federal employes and other essential workers. Suburban railroads scheduled more frequent trips.

At New York, settlement of the strike that has tied up harbor shipping and caused a fuel shortage even more severe than during the war appeared near.

Arbitration was agreed upon by the New York Tugboat Owners association and leaders of the United Marine division of the A F L International Longshoremen's association as a means of ending the dispute.

Mayor William O'Dwyer cautioned, however, that the fuel crisis would not be over the moment the strike was settled, but would continue until coal and fuel oil supplies are built up. The mayor has proclaimed a state of emergency. Public schools are closed and a "brownout" of lighting was instituted.

Prospects did not seem favorable for ending the stoppage of 175,000 C I O United Auto workers at General Motors corporation plants. A dispute between G M and employes of its electrical division, members of the C I O United Electrical Workers, was settled saturday on the basis of an 18½ cents hourly raise.

President R. J. Thomas of the Auto Workers asserted this settlement "puts us in an awful spot because now G M will come to us insisting that we settle on the same terms." U A W Vice President Walter Reuther insisted the G M auto strikers should get "more than 18½ cents."

Belgian Morale Remains High

By DEWITT MACKENZIE

BRUSSELS, Feb. 11 (AP)—This column has reported that Belgium is one of the earliest among the liberated countries to show marked signs of economic recovery, and now we can give you the secret of this success.

It is that the morale of the Belgian people—the will to conquer their difficulties—is high, and they are hard workers.

Now, of course, it would be absurd to say that these elements alone could repair such an economic catastrophe as has devastated most of Europe. But the more you study this problem at close range the more apparent it becomes that high morale and the willingness to sweat must be the basic factors of Europe's recovery.

You see signs of the Belgian determination everywhere. Mrs. Mack and I encountered one especially interesting exemplification of this spirit in the little city of Bastogne. This was the place where Uncle Sam's major General Anthony McAuliffe made his historic defiance of "nuts" to the German commander who called on him to surrender the American 101st airborne division.

Well, the people of Bastogne have taken effect adopted "nuts" as their slogan in battling the disaster which left large sections of their city looking as though a tornado had hit it. Great numbers of homes and business places were destroyed or damaged and it has been impossible to replace them or do much more than make shakeshift repairs. Many families are living in mere shells of hotuses. Many shops are not much better than hastily erected foxholes.

But still Bastogne says "nuts" and continues to carry on with vigor. Its spirit has not been broken. What is being on there is being duplicated in other war damaged areas.

The National Whirligig

By RAY TUCKER

WASHINGTON, Feb. 11 — Although the initial shock of the atom bomb's potentialities for DEFENSE annihilation has worn off in so far as the public mind is concerned, Washington's appreciation of its tremendous effect on all world relationships has given rise and a new approach to many problems and activities. The strange light upon is acting as a sort of cosmic disinfecter here and elsewhere. Legislators believe that pending plans for a permanent national defense establishment should be held in abeyance until after the Marshall Islands tests on warships.

Many will advance the unknown results of the experiment as a pretext for voting against President Truman's proposal for universal military service on a compulsory basis. They fear the political reaction to their vote on this measure, anyway, and have sought refuge behind the bomb. Mr. Truman's huge budget proposals for the army, navy and related activities have drawn fire for the same reason. Capitol Hill budgeteers thinks that $16,000,000,000 should not be turned over to the armed forces until after the May-June tax rates. They certainly can see no immediate need for haste in consolidating the construction of surface ships.

* * *

SECRET Despite the difficulties besetting the first meeting of the United Nations at London, delegates report that breaking the atom has had a sobering effect on the squabbling powers, especially the Russians. The devastating missile seems as a reserve weapon in the armory of the western bloc.

Moscow's willingness to agree to a form of international control contrasts our emissaries that the soviet may not yet hit upon the secret. Foreign Affairs Commissar Andrei Y. Vishinsky surprised everybody when he heralded the agreement on internationalization as a "noble work".

It is obvious that would supervision will require minute inspection of plants, mines and laboratories to make it effective, and it had been expected that the suspicious Russians would protest against any form of prying into their affairs.

Arabs Protest New York Site

LONDON, Feb. 11 (AP)—The United States came out tonight against Russia's demand for a United Nations security council investigation of conditions in the Dutch East Indies, arguing any action at this time might upset Dutch efforts to establish peace in the islands.

Fear "Influences"

LONDON, Feb. 11. (AP)—Two Arab states served notice today that they would fight to the last against New York as United Nations headquarters, objecting to "some political influences" there.

Iraq and Saudi Arabia both protested the New York selection as a special committee of the United Nations general assembly slowly neared the point of voting on a proposal that New York should become temporary headquarters, with a permanent site to be picked from the Westchester-Fairfield counties region to the northwest.

The Arabians did not define the political influences they disliked. Their chief concern expressed in behind the scenes conversations was that New York has a large Jewish population. The Arabs and Jews currently are in controversy over Palestine.

France previously had condemned New York as a place where strong political pressure would be brought against UNO, but a French motion to delay selection of the permanent site, as the opening stroke against the pending recommendation for New York, failed of approval Saturday.

Meanwhile, possibility that the Indonesian dispute might be shelved pending the outcome of current negotiations in Batavia between Dutch and Indonesian representatives was expressed in some quarters as the security council prepared to resume debate on Russian charges that "war is being waged" in Java.

RHOADS FINED

J. E. Rhoads, 36, Osburn, was fined $100 and costs and his driver's license was suspended for one year when he pleaded guilty in probate court Saturday afternoon to a drunken driving charge. He was arrested following an accident on the west entrance Friday night.

Russia Made Three Demands Upon Allies

WASHINGTON, Feb. 11 (AP)—Russia clamped three conditions, including outright Soviet possession of the Kurile islands, on its agreement at Yalta one year ago today to enter the Pacific war.

This conditional aspect of Generalissimo Stalin's pledge to fight Japan was disclosed when the text of the long-secret Big Three pact on the Far East was made public today in Washington, London and Moscow.

Secretary of State Byrnes reportedly has insisted it is the last of the war-time arrangements of its kind withheld from publication.

Under the agreement made public today Russia was to join the Far Eastern fight "in two or three months after Germany has surrendered." This appeared to spike finally earlier speculation that the dropping of the first atomic bomb on Hiroshima Aug. 6 prompted Russia to advance the date of its war declaration.

Germany quit May 7 and Russia declared war on Japan August 8.

The reference to the Kuriles in the Yalta pact was blunt: "The Kurile islands shall be handed over to the Soviet Union."

The other two conditions for Russia's war against Japan, agreed to by President Roosevelt and Prime Minister Churchill, were:

1. The status of the Mongolian people's republic in outer Mongolia should remain unchanged.

2. Rights held by Russia prior to "the treacherous attack of Japan in 1904" should be restored. These, the pact said, were:

Restoration to Russia of southern Sakhalin and adjacent islands.

Internationalization of the port of Dairen and restoration of the Russian lease on Port Arthur.

Joint Russian-Chinese administration of the Chinese-Eastern and South-Manchurian railways which provide an outlet to Dairen.

Queen Mary Docks With 1666 Brides

NEW YORK, Feb. 11 (AP)—The band played "Here Comes the Bride," but the resounding roar of "I'm a Yankee Doodle Dandy" came from the throats of 1666 brides—the British wives of American servicemen.

And with that exchange of song, the giant liner Queen Mary, converted into a floating nursery to accommodate the 668 children aboard, was nosed gently into its berth yesterday—ending the greatest overseas journey of women and children in history.

Tomorrow, Lincoln's birthday anniversary, is not a legal holiday in Idaho, hence banks, the courthouse and other offices will be open as usual.

Former War Prisoners Will Come To Wallace

Mrs. Joe Neville has just received word that her daughter-in-law, Mrs. Donald Keiffer and two daughters, Mimi and Patsy, have arrived in New York aboard the army transport West Point from Manila, Philippines. They plan to come to Wallace following a visit with relatives in the east. Donald Keiffer, who is employed with the United Motors in Manila, will arrive here in May or June. The family was interned at Santa Tomas University by the Japs and were prisoners there 37 months.

Coroner's Inquest May be Held

A coroner's inquest into the fatal shooting at Kellogg Friday night of Joe Boni, 31, Kellogg miner, probably will be held this afternoon, Prosecuting Attorney A. J. Graf said this morning.

Being held in the county jail is Ernest (Ernie) Johnson, 59, Kellogg, who told officers he shot Boni as he attempted to enter Johnson's tavern on Railroad avenue in Kellogg Friday night. Johnson told officers he meant to shoot Boni in the legs and had shot once into the air with a .22 caliber revolver in an attempt to frighten him off.

Boni was shot through the heart and died instantly. He had gone to the tavern, Johnson said, after Mr. and Mrs. Johnson had taken Boni's wife and two children from their home to the tavern, declaring Boni had been drinking and had "beat up" his wife. Mrs. Boni is Mrs. Johnson's daughter by a former marriage.

No charge will be filed against Johnson until after the coroner's jury makes its determination.

Rift Develops On Pauley's Nomination

WASHINGTON, Feb. 11. (AP)—A rift between congressional and national committee democrats appeared to be developing today over President Truman's controversial nomination of Edwin W. Pauley as undersecretary of the navy.

Administration supporters on Capitol hill complained in private conversations with reporters that they had not been consulted about Mr. Truman's final decision to submit Pauley's name.

They said further they had not been asked for their views before the president made it plain he did not plan to withdraw Pauley's appointment despite indications that it faces almost certain defeat in the senate.

On the other hand, National Chairman Robert E. Hannegan and his associates on the democratic national committee were quoted by some persons to whom they had talked as saying the administration leadership in the senate had done little to advance Pauley's chance for confirmation.

Senate Group To Delay Action On Labor Bills

WASHINGTON, Feb. 11 (AP)—The senate labor committee decided today to delay action upon strike control legislation until it has conducted public hearings on the Case bill passed by the house.

Chairman Murray (Dem., Mont.) announced the full committee would meet in closed session Thursday to decide upon hearing procedure on the house-approved measure.

The senate committee has taken lengthy testimony on the administration "fact-finding" bill and several proposed substitutes.

Murray said hearings had been completed on the fact-finding measure and substitutes. The chairman said President Benjamin Fairless of U. S. Steel corporation has declined an invitation to testify.

Senator Ball, (Rep., Minn.) expressed fear that many "smal businesses—the little fellows—will be squeezed out by nation-wide wage agreements between industry and unions."

The Minnesota senator engaged in a running argument with Lee Pressman, general counsel for the Congress of Industrial Organizations, before members of the senate labor committee.

Pressman, opposing the fact finding bill and proposed substitutes, said there was no need for imposing equal obligations upon labor and management to bargain collectively.

Ball disputed this, saying in numerous cases unions came in with demands for new contracts and threatened employers by saying "take this or else."

Congress meanwhile hit the winter doldrums.

The senate was rid for the first time since Jan. 17 of its strangling F E P C filibuster but weary members were given until Wednesday to pick up the legislative threads that became tangled during their long talkfest.

The house went through the formality of scheduling a session, but there was no pressing business on its calendar.

As for major committees, only one was on tap. The Pearl Harbor investigation droned on to its 13th and perhaps final week.

Top men of both parties on the house banking committee scheduled a private meeting with Housing Expediter Wilson W. Wyatt. Their aim: agreement on a bill all factions can support to carry out the administration's ambitious homes-for-veterans program.

Mrs. Hugh Toole Dies This Morning

Mrs. Hugh Toole, 59, Wallace resident for 28 years, died about 9:30 this morning in a local hospital. She had been in ill health for some time, and was preparing to undergo an operation when she died suddenly.

Mrs. Toole was born in Spokane. In addition to her widower, who recently retired as secretary of the Wallace Elks lodge after serving seven years, she is survived by a son, Hugh Toole Jr., Wilmington, Del., two brothers, Harry Holt, superintendent of schools at Kodiak, Alaska, and Kamp M. Holt, Orchard Avenue, near Spokane; and a sister, Mrs. Carlotta Wetzell, Oakland, Calif.

The date of the funeral services has not yet been set, but they will be held in Spokane, followed by cremation.

Man Badly Burned When Tank Explodes

Fred Miller, employe of the City Meat company, suffered third degree burns on the entire upper part of his body when a tank exploded this morning at the company's slaughter house in Lake gulch.

The accident happened about 11 o'clock this morning.

Although badly injured, Miller, who was working alone, was able to call the City Meat Market to ask an employe to take him to a local hospital.

The boiler, an upright affair used in rendering, exploded when a gasket on the door gave way, it is understood. Miller was badly burned on his back, chest, arms and head.

MINOR FIRE

Fire caused by wall paper being too close to a chimney caused a fire at 1:05 yesterday afternoon at No. 7 Park apartments, city firemen said. Joe Martin is the tenant.

Churchill Delays Return to Florida

WASHINGTON, Feb. 11. (AP)—Winston Churchill today postponed his return to sunny Florida until tomorrow and settled down in the snow-clad British embassy to rest and talk with the Earl of Halifax, retiring British ambassador to the United States.

The embassy said that the former prime minister had no definite plans for the day and no conferences scheduled.

The White House said that President Truman's conference with Churchill last night dealt almost wholly with a discussion of plans for Churchill's speech at Fulton, Mo., March 5.

Press Secretary Charles G. Ross told reporters that the two "did not discuss any political matters" and that the pending agreement for a loan to Britain was not mentioned.

The British leader will fly back to Washington from Missouri, while President Truman will fly to Columbus, Ohio, for a noon speech March 6 at a special meeting of the Federal Council of Churches of Christ in America.

Ross said that Fleet Admiral William D. Leahy, the president's chief of staff, participated in the conference with Churchill.

Ross said Churchill did not plan any further conferences with the president while in Washington.

Death Claims Mrs. Carson

Funeral services will be held at 9 a. m. tomorrow from St. Michael's Catholic church in Mullan, the Rev. Father Nicholas Walsh officiating, for Mrs. Mary J. Carson, 87, longtime Mullan resident who died Saturday in a Spokane hospital. She had been ill for some time.

Rosary services will be held at the family home in Mullan at 7:30 tonight. Burial will be in the Mullan cemetery.

Mrs. Carson was the widow of the late Joseph Carson, former superintendent of the Morning mine. She was born in Ireland and had lived in the district since 1894, when she went with her husband to Wardner. She had lived in Mullan since 1898.

She is survived by a son, Joe, Mullan; two daughters, Mrs. James Quinlan, Spokane, and Mrs. George Snow, Page; three sisters, Mrs. Joseph MacDonald, Pasadena, Mrs. Sadie Lott, Los Angeles, and Mrs. Margaret Richardson, Oakland; nine grandchildren and two grea grandchildren.

The Hennessey Funeral Home of Spokane is in charge of arrangements.

ARMY RECRUITER

Corporal R. K. Miller of the Spokane army recruiting office will be in the postoffice here tomorrow and Wednesday to interview men interested in enlisting.

MOTHER DIES

Mrs. Minerva J. Smart, mother of Paul Smart, Wallace, died Saturday night in a Coeur d'Alene hospital. Services will be held tomorrow afternoon in the Lake city.

Flashes Of Life

AUSTIN, Minn., Feb. 11 (AP)—Butter worked as a fine salve for Banker George Reppesaved and Cafe Owner George Kokalaris during a trip to Florida.

When hotel clerks said, "no room," the travelers casually mentioned the 50 pounds of butter they had brought with them, adding, "we might spare a bit."

The Minnesotans reported butter was the "open sesame" in every hotel visited.

CHICAGO, Feb. 11 (AP)—"How's that again?" the deputy circuit court clerk asked.

"Yep, that's right," an attorney replied. "Thomas V. Adams wants his name changed to Anthanasios V. Stamatopoulos."

The attorney said his client had his name changed the other way around eight years ago. Now he wants his original name back.

The reason: Adams and an older brother are partners in a coffee shop. They want the sign to read: Stamatopoulos Brothers.

Russians Have Little Choice

MOSCOW, Feb. 11 (AP)—More than 101,000,000 ballots were estimated today to have been cast yesterday in Russia's first general election since 1937 as Russian citizens voted for deputies to the supreme Soviet (parliament).

There was but one political party participating—the communists, sole legal party in Russia. There was but one issue—continuation of leadership by the communist party and Generalissimo Stalin. And there was only one candidate for each position.

The only choice open to the individual voter was whether to drop his folded ballot in the ballot box unmarked, which meant that he voted for the candidate whose name was printed on it; or mark off the name of the candidate, indicating a negative vote.

Final tabulations of the vote, counting of which began when the polls closed at midnight, probably will be delayed several days because of the vast distances involved. The 1287 domestic electoral districts encompass an area from the Bering straits to Poland and from the White sea to the Black sea.

Every citizen of the U. S. S. R. 18 years old or more, including red army soldiers stationed outside the country, was eligible to vote, and some estimates of the vote cast ran as high as 110,000,000.

Railroads Report Lower Net Income

WASHINGTON, Feb. 11 (AP)—The Association of American Railroads estimated today that class 1 railroads had net income in 1945, after interest and rentals, of $353,000,000, as compared with 1944 net income of $667,200,000.

Net railway operating income, before interest and rentals, totaled $849,779,893 during 1945, compared

Pinehurst Woman Takes Her Life

KELLOGG, Feb. 11.—Mrs. Ruth Reynolds, 29, Pinehurst, took her own life Saturday night by setting fire to her clothing at her home.

She was found about midnight Saturday lying in the living room of her home by her husband, Cliff Reynolds, on his return from work. She died at 12:30 yesterday afternoon in the local hospital.

She was conscious for a time before dying, and told her husband of her actions, her physician said. Dr. H. C. Mowery, county coroner, declared it a case of suicide and although no motive was announced, it was learned Mrs. Reynolds had been in poor health.

Miraculously the home did not catch fire and the four children at home at the time, ranging in age from four months to five years, were unharmed, although the house was partly filled with smoke.

Other survivors include her mother and a brother, Everett Arvidson, Pinehurst; a sister, Mrs. Hazel Dunn, Pinehurst and sisters in Minneapolis and Canada.

Finds It Hard To Get Into Prison

BOISE, Feb. 11 (AP)—John R. McDonald, 54, confessed Coeur d'Alene hit and run driver, knows now that it's sometimes hard to get into prison, too.

He arrived at the Idaho penitentiary to begin serving a year's sentence for involuntary manslaughter, but Warden Louis E. Clapp refused to admit him because his committing papers had not yet arrived from Coeur d'Alene district court.

McDonald, who pleaded guilty to killing two of three women pedestrians January 13, journeyed to Boise without official guard after the court continued his bond to the date of his acceptance at the prison. The court allowed him to make the journey alone to save a guard's expenses for the 1000-mile round trip.

Warden Clapp permitted McDonald to sleep in trusties' quarters outside the prison walls until the papers arrive.

Four Children Die In Spokane Blaze

SPOKANE, Feb. 11 (AP)—Four children of Mr. and Mrs. George Locher were burned to death early today when fire trapped them in upstairs bedrooms in a frame house in the foothills district, eight miles north of Spokane.

Deputy Sheriffs brought Mrs. Locher and another child, Donald, 4, to a hospital here. They said the child was badly burned about the hands, but that Mrs. Locher was less severely burned. Locher, not seriously burned, will be brought to the hospital later. An 18-month-old baby was rescued unharmed.

Preliminary investigation indicated the fire was caused by an overheated stove.

A. A. U. W. TO MEET

Kenneth Hill, principal of Kellogg high school, will give a talk on "Education in Idaho" at a meeting of Wallace chapter A. A. U. W. at the home of Mrs. Edgar Wood, 309 Bank street, at 8 o'clock tomorrow evening.

Union Bargains With American Smelting

CHICAGO, Feb. 11. (AP)—A spokesman for the C.I.O. International Union of Mine, Mill and Smelter Workers said today the union negotiating committee and officers of the American Smelting and Refining company, would meet in Perth Amboy, N. J., Wednesday to discuss union demands.

The committee postponed fixing a date for a nation-wide strike until after that meeting, he said. The union seeks a 30 per cent wage increase and negotiations on a national basis. He said the strike, if called, would involve 7000 workers in 18 American Smelting and Refining company plants.

On Strike in Utah.

SALT LAKE CITY, Feb. 22. (AP)—Approximately 5000 employes of three Utah metals companies have been idle since the International Union of Mine, Mill and Smelter Workers voted a strike January 21 after demanding higher wages.

The companies affected are Utah Copper company, United States Smelting, Refining and Mining company and American Smelting and Refining company.

The workers demanded wages comparable to those paid for similar work in north Idaho.

The Coeur d'Alene Vikings continued their hot pace in the Panhandle class A basketball conference Saturday night by downing the Miners 50-34 in a tilt in the Lake City.

Coeur d'Alene, however, was not able to pile up a score until the last quarter and a half, and for a while trailed the Miners.

Wallace held a 12-11 lead at the end of the first quarter and the Vikings were ahead only 23-22 at halftime. By the end of the third quarter, however, the Vikings held a 35-28 lead. Loss of Hanson and Elwards via the foul route in the last quarter hurt the Miners.

Frandsen, high scoring Coeur d'Alene forward, led the point-making with 23 while Larsen and Edwards were high for Wallace, with 14 and 12, respectively.

The Coeur d'Alene B team won the preliminary, 40-23.

Kellogg Wins.

KELLOGG, Feb. 11. — Kellogg edged out Priest River, 30-29 here Saturday night. The win gave Kellogg temporary possession of second place.

The Wildcats were not particularly sharp in shooting, missing enough shots in the first quarter to win most games. From the free throw line, the locals caged only two shots out of 12.

Priest River was better in the free throw department and made 11 good out of 15 tries. Of the first 10 points, the Spartans garned eight from the free toss route.

The Wildcat zone defense completely baffled the speedy visitors most of the contest. The Wildcats also dominated the backboard play.

The teams were tied 6-6 at the end of the first quarter and Kellogg enjoyed a 20-16 lead at half-time. A basket at the start of the second half made it 22 to 16 for Kellogg, then the Spartans went to work. Led by Krizensky, who stole the ball for two quick lay-ins, and Low, center, who made 10 points, Priest River was only a point behind at the end of the third quarter. A rebound shot after missing a free throw by Jerry Turnbow in the last minute gave the locals the one-point margin.

Kellogg Frosh-Soph team won from Kingston in a preliminary contest.

Golfing Texans Head For New Orleans

SAN ANTONIO, Texas, Feb. 11 (AP)—Those torrid Texans—Ben Hogan, Byron Nelson and Jimmie Demaret—led the cash winners along the P G A trail today as the links tourists departed for New Orleans and its $7500 tournament, $1500 first money in the 19th Texas open tucked away in Hogan's pocket.

Hogan took the tournament here yesterday with a record - breaking 264—40 below par on Brackenridge park course for 72 holes—and thus natives of this state now have won five of the six golf meets of the year.

Nelson, the Toledo, Ohio, golf master who finished third here with 273, has grabbed the tournaments, the same as Hogan, but is in second place in earnings, since he did not play in three of the meets.

Little Ben has gathered in $6150 in cash this year to date. Nelson has won $4248.

TRAIN HITS TRUCK

O. McCollum, Mullan, reported to sheriff's officers Saturday afternoon that the beer truck belonging to John Posnick which he was driving was struck by a train at the Mill road crossing in Mullan Friday night. The truck, he said, was stalled on the crossing. The machine was badly damaged but no one was hurt. He was not in the truck at the time.

W-K Gun Club Wins Two Matches

Wallace-Kellogg Gun club shooters won two matches in The Spokesman-Review Inland Empire telegraphic trap shoot tournament yesterday with a score of 71. This gives the locals a record of six won and four lost.

They defeated Ellensburg, with 70, and Coulee City, with 62.

Sixty-four shooters turned out yesterday at Kellogg. They reported snow falling and hazy weather. Ernie Dyer and E. W. Phillips each scored 24 and Bob Emmingham and Lloyd Deeters had 23 apiece.

Vandals Back in Conference Lead

PULLMAN, Feb. 11 (AP)—The Vandals of University of Idaho moved back into a first-place tie with Oregon State in the northern division of the Pacific Coast Basketball conference by nosing out cellar-place Washington State College Saturday night, 35-33.

Starting slowly for a league-leading club, the Moscow team was hard pressed in snagging a victory, and only a spectacular one-handed push shot by Guard Bill Carbaugh saved the bacon in the last minute of play.

The Cougars led 19 to 13 at the half, and successfully held off the Idaho attack until the last five minutes, when the score was knotted at 25-all. Idaho tied the score at 31-all with two minutes to go, and again at 33-all in the closing seconds of play. Gale Bishop, Cougar forward, scored six points in as many minutes to keep the home team in the game.

The victory was Idaho's seventh against four defeats, tieing Oregon State College and leaving Oregon University, with five wins and four losses, the only other likely contender for the pennant, on the basis of percentages alone.

Idaho goes to Seattle next weekend for a two-game series with Washington, while Washington State will meet Oregon Tuesday and Wednesday at Eugene. Washington State and Oregon State will play a week-end pair at Corvallis to complete the schedule.

Moscow Will Get Cage Tournaments

MOSCOW, Feb. 11 (AP)—Moscow today was awarded the North Idaho State Basketball tournaments for class A and B schools, Kenneth F. Dean, Genesee, member of the State High School Athletic Association board, announced.

Tournament dates are March 14, 15 and 16.

Entering will be winner and runner up teams in both divisions from north and central Idaho district tournaments run the previous week at Kellogg and Lewiston, Dean said. University of Idaho's memorial gymnasium will be the tournament scene. Play, Dean said, will be on a single elimination basis.

Dean made the announcement after conferring with L. C. Robinson, Sand Point, state association president.

Von Paulus Describes Attack On Russia

NUERNBERG, Feb. 11 (AP)—Field Marshal General Fredrich von Paulus, who was vanquished at Stalingrad and became the Moscow radio's chief German propagandist, testified before his former commanders today he was given the task in September, 1940, of preparing the campaign against Russia.

The date for the attack was set back for five weeks, until June 22, 1941, when Hitler decided to overrun Yugoslavia first, von Paulus told the international military tribunal.

The Russian prosecution submitted to the court a report that this invasion and occupation of Yugoslavia brought death to 1,650,000 persons, or more than 10 per cent of the population.

He said the Finnish general staff collaborated with the German high command on the invasion months ahead of the actual attack, and attributed Hungary's participation to greed for lost territories and jealousy of other nazi satellites.

STAGE RAIDS

BAD TOELZ, Germany, Feb. 11 (AP)—The American army's newly formed constabulary staged lightning raids on displaced persons camps near Nuernberg and Munich today for the purpose of seizing evidence and breaking up attempts by Poles and Yugoslavs to form groups hostile to the present Warsaw and Belgrade governments.

CITY COUNCIL

The city council will meet at 8 o'clock tonight in the city hall.

The Whirligig

(Continued From Page One)

as against withholding the secret from other nations falls to Senator Brien McMahon of Connecticut, chairman of the senate committee now investigating the whole problem.

Although vacationing on a mountain top in Vermont when the bomb destroyed Hiroshima, he immediately grasped its significance. In presenting the original bill for a congressional study on September 6, he rocked army-navy brass hats when he said bluntly:

"When that bomb was dropped on Hiroshima, a new era opened up, and the waging of war basically, fundamentally and completely changed . . . Airplanes, battleships, aircraft carriers and tanks may well be on their way to extinction."

* * *

INTERNATIONAL Senator MaMahon's bill also provided for "the free, untrammeled and complete right of access and inspection by the security council of all the plants, laboratories and operations relating to research, development, manufacture and production of armaments and munitions of war".

Members from both sides of the aisle buttonholed him when he had concluded. They protested against his proposal for world control and periodic surveys. They took the narrow, nationalistic viewpoint that the United States, Britain and Canada should keep the secret among themselves.

But the man from Connecticut stuck to his guns. He arranged his special committee's hearing schedule so that the scientists should present their arguments first. They testified that the problem, for the sake of world peace and security, must be considered on an international rather than a national level. The idea gained headway until the original objectors changed their tune.

Now that Russia has adhered to this view, the McMahon program has been accepted unanimously. When it is recalled that the powers could never agree on the limitation or prohibition of the use of airplanes, poison gas or subs, the London pact assumes vast historic significance.

BLAME It was no accident that the Murray - Reuther forces within the C. I. O. hastened to settle several major strikes—Ford, Chrysler, meat—within 24 hours after the announcement that John L. Lewis had led his United Mine Workers back into the American Federation of Labor. The remarriage of the two old-line organizations succeeded where the White House had failed to compose these industrial disputes.

In squaring off for the expected finish fight with his adversaries, Murray figured that it would be wise to put his house in order and discipline his brawling family. He had detected signs that Lewis and William Green, whose unions have had only a minor part in the recent unpleasantness, schemed to shift the blame for industrial disturbances to his shoulders. They intended to get him in wrong with a consuming public hungry for automobiles, radios, meats and other goods.

* * *

REFUSAL Murray had heard of Green's visit to the White House and his reminder to President Truman that the A. F. of L. members, with only a few exceptions, were staying on the job. He also noted his rival's report that he had negotiated increases from 10 to 20 per cent for his more than 2,500,000 workers without resort to a walkout.

He may also have heard of John L.'s refusal to intervene in an attempt to terminate the C. I. O. strikes. Thinking that the U. M. W. head could exert pressure on the steel and auto unions he had founded, friends of the chief executive suggested that he use his good offices. Murray did not like the tone of the Lewis reply:

"As long as the president is trailing along with the C. I. O. bunch of radicals, there is not help or advice I can give!" — Copyright McClure Newspaper Syndicate.

Candlestick Maker Has His Day—At Night

WARSAW, Poland (AP)—Business is booming for hundreds in Warsaw who earn their living making candles. The city must do most of its night work by candlelight.

The reason is simply stated by the manager of the Russian-rebuilt electric power plant: He turns off the power.

Since there's virtually no coal in Warsaw because of the lack of railway cars and trucks, thousands of families have purchased electric heaters. The result is that when people are home at night there is more demand than there is current.

Turbines that replaced those removed by the Nazis are of limited power and must be turned off.

Sodalists Stress Catholic Home Program

Climaxing a week of preparation, the Sodalists of Our Lady of Lourdes academy last night at a joint parent-sodalist meeting, presented the last point of their seven-point Catholic home program. Over 70 parents and friends were present.

Benediction was followed by a brief business meeting after which Bonita Fellin gave a report on "Your Family and the Holy Family" and Rosemary Visintainer read Virginia Hanson's report on "Fortifying the Home." Bill Grismer, prefect, gave a summarized discussion on the points of the week, speaking on "How Youth Should Prepare to Build a Future Happy Home." Rita Marie Steuart, secretary, gave "A Girl's Viewpoint on How to Perpetuate a Happy Married Life."

Four guest speakers gave the parents' viewpoints. They were Mrs. Joseph Grismer, George Grismer, Pete Higgins and William J. Murphy.

The students brought the program to a close with a skit, "Why Leave Home." The cast included Bill Grismer, Rae Elva Coats, Ed Grismer, Bonita and David Fellin.

A social, dancing and refreshments followed.
